Subject Index

Abscess, spinal epidural

decreased morbidity from acute bacterial spinal epidural abscesses using computed tomography and nonsurgical treatment in selected patients (Leys et al), 350

Absences

local cerebral metabolic rate for glucose during petit mal absences (Engel et al), 121

Acetylcholine receptors

myasthenia gravis: reactivation of clinical disease and of autoimmune factors after discontinuation of long-term azathioprine (Hohlfeld et al), 238

Acetylcholinesterase

cerebrospinal fluid acetylcholinesterase activity in senile dementia of the Alzheimer type (Tune et al), 46

Acquired immune deficiency syndrome

progressive encephalopathy in children with acquired immune deficiency syndrome (Epstein et al), 488
progressive multifocal leukoencephalopathy: clinical and radiographic features (Krupp et al), 344

Adrenoleukodystrophy

adrenoleukomyeloneuropathy with onset in early childhood (Rosen et al), LETTER, 311

Adrenoleukomyeloneuropathy

adrenoleukomyeloneuropathy with onset in early childhood (Rosen et al), LETTER, 311

Aging

the aging human brain (Creasey and Rapoport), NEUROLOGICAL PROGRESS, 2

Agnosia, hemispatial

hemispheric lateralization of spatial contrast sensitivity (Kobayashi et al), 141

Alcoholism

hypoglycemia: causes, neurological manifestations, and outcome (Malouf and Brust), NEUROLOGICAL REVIEW, 421

Alzheimer's disease

Alzheimer changes in nondemented patients younger than sixty-five: possible early stages of Alzheimer's disease and senile dementia of Alzheimer type (Ulrich), 273

atypical Alzheimer's disease with spastic paresis and ataxia (Aikawa et al), 297

an immunochemical study of the pyruvate dehydrogenase deficit in Alzheimer's disease brain (Sheu et al), 444

the nucleus basalis of Meynert in neurological disease: a quantitative morphological study (Rogers et al), 163

nucleus raphe dorsalis in Alzheimer's disease: neurofibrillary tangles and loss of large neurons (Yamamoto and Hirano), 573

occurrence of neuropathological changes and dementia of Alzheimer's disease in Down's syndrome (Wisniewski et al), 278

Alzheimer's disease, early-onset

early-onset Alzheimer's disease: an analysis of CT findings (Drayer et al), 407

Alzheimer's disease, experimental

comparison of survival times of mice inoculated with brain tissue from various neurological diseases (Greenham and Peacock), 206

Alzheimer type lesions

Alzheimer changes in nondemented patients younger than sixty-five: possible early stages of Alzheimer's disease and senile dementia of Alzheimer type (Ulrich), 273

Amnesia, experimental diencephalic

amnesia in monkeys after lesions of the mediodorsal nucleus of the thalamus (Zola-Morgan and Squire), 558

Amyotrophic lateral sclerosis

motor neuron disease and adult hexosaminidase A deficiency in two families: evidence for multisystem degeneration (Mitsumoto et al), 378

neurotransmitter receptors in amyotrophic lateral sclerosis: possible relationship to sparing of eye movements (Whitehouse et al), LETTER, 518

Aneurysm, ruptured intracranial

hyponatremia and cerebral infarction in patients with ruptured intracranial aneurysms: is fluid restriction harmful? (Wijdicks et al), 137

Angiitis, intracerebral

crystalline encephalopathy: cerebral immunoprotein deposits and isolated angiitis (Pezeshkpour et al), 96

Angiogenesis, telencephalic

human telencephalic angiogenesis (Kuban and Gilles), 539

Antibody response

increased prevalence and titer of Epstein-Barr virus antibodies in patients with multiple sclerosis (Sumaya et al), 371

Antidiuretic hormone

hyponatremia and cerebral infarction in patients with ruptured intracranial aneurysms: is fluid restriction harmful? (Wijdicks et al), 137

Anti-myelin-associated glycoprotein antibody

polyneuropathy and IgM monoclonal gammopathy: studies on the pathogenetic role of anti-myelin-associated glycoprotein antibody (Mendell et al), 243

Aphasia, fluent

anatomical basis for acquired fluent aphasia in children (VanDongen et al), 306

the critical role of Wernicke's area in sentence repetition (Selnes et al), 549

Apraxia, eyelid

atypical presentation of progressive supranuclear palsy (Davis et al), 337

Arterial muscularization

human telencephalic angiogenesis (Kuban and Gilles), 539

Asphyxia neonatorum

positron emission tomography in the asphyxiated term newborn: parasagittal impairment of cerebral blood flow (Volpe et al), 287

Ataxia

atypical Alzheimer's disease with spastic paresis and ataxia (Aikawa et al), 297

progressive encephalopathy in children with acquired immune deficiency syndrome (Epstein et al), 488

Atherosclerosis, carotid bifurcation

the role of plasma lipids in carotid bifurcation atherosclerosis (Ford et al), 301

Atrophy, infantile cerebellar

infantile cerebellar atrophy (Furman et al), 399

Atrophy, progressive hemifacial

hemiplegic migraine and progressive hemifacial atrophy (Sagild and Alving), LETTER, 620

- Attenuation, axonal**
axonal attenuation and secondary segmental demyelination in myeloma neuropathies (Ohi et al), 255
- Autoimmune factors**
myasthenia gravis: reactivation of clinical disease and of autoimmune factors after discontinuation of long-term azathioprine (Hohlfeld et al), 238
- Autoradiography**
in vivo measurement of brain tumor pH using [^{11}C] DMO and positron emission tomography (Rottenberg et al), 70
- Axonal degeneration**
direct immunofluorescence findings in peripheral nerve from patients with diabetic neuropathy (Graham and Johnson), 450
- Axonal demyelination**
experimental lead neuropathy: inorganic lead inhibits proliferation but not differentiation of Schwann cells (Sobue and Pleasure), 462
- Axonal neuropathy**
polyneuropathy and IgM monoclonal gammopathy: studies on the pathogenetic role of anti-myelin-associated glycoprotein antibody (Mendell et al), 243
- Axons, giant**
hereditary motor sensory neuropathy type II with neurofilament accumulation: new finding or new disorder? (Vogel et al), 455
- Azathioprine**
myasthenia gravis: reactivation of clinical disease and of autoimmune factors after discontinuation of long-term azathioprine (Hohlfeld et al), 238
- Baclofen**
electrophysiological analysis of the mode of action of muscle relaxants in spasticity (Delwaide), 90
encephalopathy associated with baclofen (Abarbanel et al), LETTER, 617
- Benzodiazepines**
antispasticity drugs: mechanisms of action (Davidoff), NEUROLOGICAL PROGRESS, 107
- Blood-brain barrier**
the basis of intra-blood-brain-barrier IgG synthesis (Tourettelotte et al), 21
high-resolution computed tomography in multiple sclerosis (Barrett et al), 33
IgG production within the central nervous system: a critical review of proposed formulae (Lefvert and Link), 13
quantitation of the synthesis of immunoglobulin G within the central nervous system (Whitaker), EDITORIAL COMMENT, 11
- Blood flow, cerebral**
basal ganglia glucose utilization after recent precentral ablation in the monkey (Dauth et al), 431
intracranial pressure, conductance to cerebrospinal fluid outflow, and cerebral blood flow in patients with benign intracranial hypertension (pseudotumor cerebri) (Gjeris et al), 158
leptomeningeal metastases: reduction in regional cerebral blood flow and cognitive impairment (Siegal et al), 100
- Blood flow, regional brain**
stimulus rate determines regional brain blood flow in striate cortex (Fox and Raichle), 303
- Blood flow, regional cerebral**
positron emission tomography in the asphyxiated term newborn: parasagittal impairment of cerebral blood flow (Volpe et al), 287
- Blood flow, regional cerebral, experimental**
regional cerebral blood flow decreases during hyperglycemia (Duckrow et al), 267
- Blood glucose**
hypoglycemia: causes, neurological manifestations, and outcome (Malouf and Brust), NEUROLOGICAL REVIEW, 421
- Bombesin, regional brain concentrations**
alterations in regional brain concentrations of neurotensin and bombesin in Parkinson's disease (Bissette et al), 324
- 2-*t*-Butylazo-2-hydroxy-5-methylhexane**
clinical and experimental neurotoxicity of 2-*t*-butylazo-2-hydroxy-5-methylhexane (Spencer et al), 28
- Books**
Atlas of Human Cross-Sectional Anatomy, by Cahill and Orland (brief review), 622
Basic Concepts of Neuronal Function, A Multilevel Self-Teaching Textbook, by Jewett and Rayner (Plum), 420
The Cerebral Veins, An Experimental and Clinical Update, edited by Auer and Loew (brief review), 316
Chemical Neuroanatomy, edited by Emson (brief review), 316
Clinical Electromyography, ed 3, by Lenman and Ritchie (Mackel), 316
The Clinical Neurosciences, Neurology, Neurosurgery, Neuropathology, Neuroradiology, Neurobiology, edited by Rosenberg et al (Plum), 214
Experimental Allergic Encephalomyelitis, A Useful Model for Multiple Sclerosis (Vol 146, Progress in Clinical and Biological Research), edited by Alvord Jr et al (brief review), 622
Glutamine, Glutamate, and GABA in the Central Nervous System (Neurology and Neurobiology, Vol 7), edited by Hertz et al (brief review), 316
Handbook of Neurochemistry, edited by Lajtha (Cooper), 622
Hemisyndromes, Psychobiology, Neurology, Psychiatry, edited by Myslobodsky (brief review), 316
Merritt's Textbook of Neurology, ed 7, edited by Rowland (Plum), 214
Motor Control Mechanisms in Health and Disease (Vol 39, Advances in Neurology), edited by Desmedt (Mackel), 214
Parallel Processing in the Visual System by Stone (Richmond), 420
Peripheral Neuropathy, ed 2, Vols 1 and 2, edited by Dyck et al (brief review), 316
The Pharmacology of Nerve and Muscle in Tissue Culture, by Harvey (Goldman), 420
Visual Disorders in the Handicapped Child, by Goble (brief review), 316
The Visual System in Myelin Disorders, edited by Nettens et al (brief review), 316
- Bradykinesia**
association between essential tremor and Parkinson's disease (Geraghty et al), 329
- Brain aging**
the aging human brain (Creasey and Rapoport), NEUROLOGICAL PROGRESS, 2
- Brain atrophy**
computed tomographic analysis of brain morphometrics in 30 healthy men, aged 21 to 81 years (Schwartz et al), 146
- Brain function**
the aging human brain (Creasey and Rapoport), NEUROLOGICAL PROGRESS, 2
- Brain mapping**
high-resolution computed tomography in multiple sclerosis (Barrett et al), 33
- Brain neoplasm pH, regional**
in vivo measurement of brain tumor pH using [^{11}C]DMO and positron emission tomography (Rottenberg et al), 70

- Brain neoplasms
postoperative contrast enhancement in patients with brain tumor (Cairncross et al), 570
- Brain structure
the aging human brain (Creasey and Rapoport), *NEUROLOGICAL PROGRESS*, 2
- Brain tissue inoculation, experimental
comparison of survival times of mice inoculated with brain tissue from various neurological diseases (Greenham and Peacock, 206)
- Breathing, sleep-related abnormal
abnormal breathing patterns during sleep in diabetes (Mondini and Guillemineault), 391
- Brodman areas
basal ganglia glucose utilization after recent precentral ablation in the monkey (Dauth et al), 431
- Burst suppression, electroencephalographic
stimulus-induced myoclonus and burst suppression on EEG: effects of phenytoin toxicity (Trauner), *LETTER*, 312
- Calcium homeostasis, loss of
an immunochemical study of the pyruvate dehydrogenase deficit in Alzheimer's disease brain (Sheu et al), 444
- Cancer occurrence
low cancer rates among patients with Parkinson's disease (Jansson and Jankovic), 505
- Carbidopa
mesulergine (CU32-085) in the treatment of Parkinson's disease (Pfeiffer et al), 334
- Carbon isotopes
in vivo estimation of muscle protein synthesis in myotonic dystrophy (Halliday et al), 65
in vivo measurement of brain tumor pH using [^{11}C]DMO and positron emission tomography (Rottenberg et al), 70
- Cefazolin
cefazolin-induced encephalopathy in a uremic patient (Schwankhaus et al), *LETTER*, 211
- Central pontine myelinolysis
central pontine myelinolysis diagnosed by magnetic resonance imaging (Takeda et al), *LETTER*, 310
- Cerebellar ataxia
infantile cerebellar atrophy (Furman et al), 399
- Cerebellar diseases
adenoleukomyeloneuropathy with onset in early childhood (Rosen et al), *LETTER*, 311
- Cerebral infarction
hemispheric lateralization of spatial contrast sensitivity (Kobayashi et al), 141
hyponatremia and cerebral infarction in patients with ruptured intracranial aneurysms: is fluid restriction harmful? (Wijdicks et al), 137
- Cerebral infarction, experimental
induction of reproducible brain infarction by photochemically initiated thrombosis (Watson et al), 497
- Cerebral infarction, neonatal
seizures and cerebral infarction in the full-term newborn (Levy et al), 366
- Cerebral ischemia
the critical role of Wernicke's area in sentence repetition (Selnes et al), 549
regional cerebral blood flow decreases during hyperglycemia (Duckrow et al), 267
- Cerebral metabolism
the aging human brain (Creasey and Rapoport), *NEUROLOGICAL PROGRESS*, 2
- Cerebral palsy
positron emission tomography in the asphyxiated term newborn: parasagittal impairment of cerebral blood flow (Volpe et al), 287
- Cerebrospinal fluid
cerebrospinal fluid acetylcholinesterase activity in senile dementia of the Alzheimer type (Tune et al), 46
- Cerebrospinal fluid outflow
intracranial pressure, conductance to cerebrospinal fluid outflow, and cerebral blood flow in patients with benign intracranial hypertension (pseudotumor cerebri) (Gjeris et al), 158
- Cerebrospinal fluid proteins
ocular palsy preceding chronic relapsing polyneuropathy by several weeks (Donaghy and Earl), 49
- Cherry-red spot
the cherry-red spot in Tay-Sachs and other storage diseases (Kivlin et al), 356
- Cognition disorders
information processing speed in Friedreich's ataxia (Hart et al), 612
- Coitus
paraplegia resulting from rupture of previously asymptomatic intramedullary hemangioblastoma during coitus (Rothstein), *LETTER*, 519
- Colombia
tropical spastic paraparesis: a neuroepidemiological study in Colombia (Román et al), 361
- Complement deposition
direct immunofluorescence findings in peripheral nerve from patients with diabetic neuropathy (Graham and Johnson), 450
- Computed tomography. *See* Tomography, x-ray computed
- Concentric lesions
atypical multiple sclerosis with concentric or lamellar demyelinated lesions: two Japanese patients studied post mortem (Itoyama et al), 481
- Connective tissue diseases

meeting on diabetic neuropathy (Thomas), *NOTE*, 210
- Diazepam**
electrophysiological analysis of the mode of action of muscle relaxants in spasticity (Delwaide), 90
- Diencephalon, lesions of**
amnesia in monkeys after lesions of the mediodorsal nucleus of the thalamus (Zola-Morgan and Squire), 558
- Dimethylglycine**
dimethylglycine and reduction of mortality in penicillin-induced seizures (Ward et al), *LETTER*, 213
- Diplegia, facial**
facioscapulohumeral dystrophy presenting in infancy with facial diplegia and sensorineural deafness (Korf et al), 513
- Disulfiram**
reversible, late-onset disulfiram-induced neuropathy and encephalopathy (Borrett et al), 396
- Diurnal symptomatic change**
idiopathic dystonia-parkinsonism with marked diurnal fluctuation of symptoms (Sunohara et al), 39
- Down's syndrome**
occurrence of neuropathological changes and dementia of Alzheimer's disease in Down's syndrome (Wisniewski et al), 278
- Drug levels, anticonvulsant**
electroencephalographic spiking activity, drug levels, and seizure occurrence in epileptic patients (Gotman and Marciani), 597
- Dynorphin**
endogenous opioid immunoreactivity in rat spinal cord following traumatic injury (Faden et al), 386
- Dystonia**
neurological findings in triosephosphate isomerase deficiency (Poll-The et al), 439
- Dystonia, acute**
tetraabenazine induces acute dystonic reactions (Burke et al), 200
- Dystonia-parkinsonism**
idiopathic dystonia-parkinsonism with marked diurnal fluctuation of symptoms (Sunohara et al), 39
- Dystrophin myotonia**
in vivo estimation of muscle protein synthesis in myotonic dystrophy (Halliday et al), 65
- Editorial**
message from the editor (Asbury), 1
- Electrodes, nasopharyngeal**
electroencephalographic recording from the temporal lobes: a comparison of ear, anterior temporal, and nasopharyngeal electrodes (Sperling and Engel), 510
- Electroencephalogram**
electroencephalographic spiking activity, drug levels, and seizure occurrence in epileptic patients (Gotman and Marciani), 597
- Electroencephalography, temporal lobe**
electroencephalographic recording from the temporal lobes: a comparison of ear, anterior temporal, and nasopharyngeal electrodes (Sperling and Engel), 510
- Encephalitis, herpesvirus**
herpes simplex virus type 2 encephalitis in two homosexual men with persistent lymphadenopathy (Dix et al), 203
- Encephalomyelitis virus, murine, experimental**
adoptive transfer of murine relapsing experimental allergic encephalomyelitis (Lublin), 188
- Encephalopathy**
encephalopathy associated with baclofen (Abarbanel et al), *LETTER*, 617
- Encephalopathy, cefazolin-induced**
cefazolin-induced encephalopathy in a uremic patient (Schwankhaus et al), *LETTER*, 211
- Encephalopathy, crystalline**
crystalline encephalopathy: cerebral immunoprotein deposits and isolated angitis (Pezeshkpour et al), 96
- Encephalopathy, disulfiram-induced**
reversible, late-onset disulfiram-induced neuropathy and encephalopathy (Borrett et al), 396
- Encephalopathy, progressive**
progressive encephalopathy in children with acquired immune deficiency syndrome (Epstein et al), 488
- Epidemiology**
Alzheimer changes in nondemented patients younger than sixty-five: possible early stages of Alzheimer's disease and senile dementia of Alzheimer type (Ulrich), 273
the frequency of multiple sclerosis in Italy: a descriptive study in Ferrara (Granieri et al), 80
low cancer rates among patients with Parkinson's disease (Jansson and Jankovic), 505
tropical spastic paraparesis: a neuroepidemiological study in Colombia (Román et al), 361
- Epidural abscess, spinal**
decreased morbidity from acute bacterial spinal epidural abscesses using computed tomography and nonsurgical treatment in selected patients (Leys et al), 350
- Epilepsy**
nonconvulsive status epilepticus following metrizamide myelogram (Levin and Lee), *LETTER*, 518
 γ -vinyl GABA: a double-blind placebo-controlled trial in partial epilepsy (Gram et al), 262
- Epilepsy, focal**
electroencephalographic spiking activity, drug levels, and seizure occurrence in epileptic patients (Gotman and Marciani), 597
- Epilepsy, intractable**
atypical presentations of pyridoxine-dependent seizures: a treatable cause of intractable epilepsy in infants (Goutières and Aicardi), 117
the second sensory area in humans: evoked potential and electrical stimulation studies (Lüders et al), 177
- Epilepsy, myoclonic**
mitochondrial myopathies (DiMauro et al), *NEUROLOGICAL PROGRESS*, 521
- Epilepsy, myoclonic, familial**
maternally inherited mitochondrial myopathy and myoclonic epilepsy (Rosing et al), 228

- Epilepsy, petit mal**
local cerebral metabolic rate for glucose during petit mal absences (Engel et al), 121
- Epilepsy, temporal lobe**
electroencephalographic recording from the temporal lobes: a comparison of ear, anterior temporal, and nasopharyngeal electrodes (Sperling and Engel), 510
- Epstein-Barr virus antibodies**
increased prevalence and titer of Epstein-Barr virus antibodies in patients with multiple sclerosis (Sumaya et al), 371
- Evoked potentials, somatosensory, scalp**
dermatomal somatosensory evoked potentials in unilateral lumbosacral radiculopathy (Aminoff et al), 171
- Evoked potentials, somatosensory, subdural**
the second sensory area in humans: evoked potential and electrical stimulation studies (Lüders et al), 177
- Eye movements**
disturbance of smooth pursuit caused by infarction of occipitoparietal cortex (Leigh and Tusa), 185
eye movements in patients with absent voluntary horizontal gaze (Baloh et al), 283
neurotransmitter receptors in amyotrophic lateral sclerosis: possible relationship to sparing of eye movements (Whitehouse et al), LETTER, 518
treatment of ocular myoclonus with valproic acid (Lefkowitz and Harpold), LETTER, 103

leptomeningeal metastases: peripheral nerve and root involvement—clinical and electrophysiological study (Argov and Siegal), 593
ocular palsy preceding chronic relapsing polyneuropathy by several weeks (Donaghy and Earl), 49
- GABA, γ -vinyl**
 γ -vinyl GABA: a double-blind placebo-controlled trial in partial epilepsy (Gram et al), 262
- Gait disturbance**
association between essential tremor and Parkinson's disease (Geraghty et al), 329
atypical presentation of progressive supranuclear palsy (Davis et al), 337
- Gangliosidosis, GM₁**
the cherry-red spot in Tay-Sachs and other storage diseases (Kivlin et al), 356
- Genes, dominant**
the molecular basis for autosomal dominant inheritance (Makin), LETTER, 517; reply (Rosenberg), LETTER, 517
- Genes, recessive**
autosomal recessive distal muscular dystrophy: a comparative study with distal myopathy with rimmed vacuole formation (Nonaka et al), 51
- Glioma, pontine**
eye movements in patients with absent voluntary horizontal gaze (Baloh et al), 283
- Glucose utilization**
regional cerebral blood flow decreases during hyperglycemia (Duckrow et al), 267
- Glucose utilization, basal ganglia**
basal ganglia glucose utilization after recent precentral ablation in the monkey (Dauth et al), 431
- Hallucinations**
lithium-induced visual hallucinations: evidence for possible opioid mediation (Sandyk and Gillman), LETTER, 619
- Head circumference**
increased head circumference in patients with Duchenne muscular dystrophy (Schmidt et al), LETTER, 620
- Hearing loss, sensorineural**
facioscapulohumeral dystrophy presenting in infancy with facial diplegia and sensorineural deafness (Korf et al), 513
- Hemangioblastoma, intramedullary**
paraplegia resulting from rupture of previously asymptomatic intramedullary hemangioblastoma during coitus (Rothstein), LETTER, 519
- Hematoma, subdural**
multiloculated fluid-blood level with subdural hematoma (Finelli), LETTER, 103
- Hemispheric lateralization**
hemispheric lateralization of spatial contrast sensitivity (Kobayashi et al), 141
- Hemolytic anemia**
neurological findings in triosephosphate isomerase deficiency (Poll-The et al), 439
- Hepatic dysfunction**
late-onset Wilson's disease with neurological involvement in the absence of Kayser-Fleischer rings (Ross et al), 411
- Hereditary disease**
hereditary motor sensory neuropathy type II with neurofilament accumulation: new finding or new disorder? (Vogel et al), 455
infantile cerebellar atrophy (Furman et al), 399
mitochondrial myopathies (DiMauro et al), NEUROLOGICAL PROGRESS, 521
motor neuron disease and adult hexosaminidase A deficiency in two families: evidence for multisystem degeneration (Mitumoto et al), 378
- Hereditary motor sensory neuropathy type II**
hereditary motor sensory neuropathy type II with neurofilament accumulation: new finding or new disorder? (Vogel et al), 455
- Herpes simplex virus type 2**
herpes simplex virus type 2 encephalitis in two homosexual men with persistent lymphadenopathy (Dix et al), 203
- Hexanes**
clinical and experimental neurotoxicity of 2-*t*-butylazo-2-hydroxy-5-methylhexane (Spencer et al), 28
- Hexosaminidase A deficiency**
motor neuron disease and adult hexosaminidase A deficiency in two families: evidence for multisystem degeneration (Mitumoto et al), 378
- Homosexuality**
herpes simplex virus type 2 encephalitis in two homosexual men with persistent lymphadenopathy (Dix et al), 203
- Homovanillic acid**
idiopathic dystonia—parkinsonism with marked diurnal fluctuation of symptoms (Sunohara et al), 39

- 5-Hydroxyindoleacetic acid
idiopathic dystonia-parkinsonism with marked diurnal fluctuation of symptoms (Sunohara et al), 39
- Hyperbaric oxygenation
hyperbaric oxygenation does not improve chronic progressive multiple sclerosis (Rosen), LETTER, 615
- Hyperglycemia, experimental
regional cerebral blood flow decreases during hyperglycemia (Duckrow et al), 267
- Hyperventilation, central neurogenic
central neurogenic hyperventilation in a conscious patient with a primary cerebral lymphoma (Bateman et al), 402
- Hypoglycemia, neurological manifestations
hypoglycemia: causes, neurological manifestations, and outcome (Malouf and Brust), NEUROLOGICAL REVIEW, 421
- Hyponatremia
hyponatremia and cerebral infarction in patients with ruptured intracranial aneurysms: is fluid restriction harmful? (Wijdicks et al), 137
- Hypophysectomy, experimental
hypophysectomy mitigates skeletal muscle fiber damage in hamster dystrophy (Karpati et al), 60
- Hypoxia, histotoxic
an immunochemical study of the pyruvate dehydrogenase deficit in Alzheimer's disease brain (Sheu et al), 444
- Ice water ingestion
improved optic nerve conduction with ingestion of ice water (Scherokman et al), LETTER, 418
- Idrocilamide
electrophysiological analysis of the mode of action of muscle relaxants in spasticity (Delwaide), 90
- IgG measurements
the relationship between levels of cerebrospinal fluid myelin basic protein and IgG measurements in patients with multiple sclerosis (Warren and Catz), 475

Ocular palsy

- ocular palsy preceding chronic relapsing polyneuropathy by several weeks (Donaghy and Earl), 49

Oligoclonal bands

- the basis of intra-blood-brain-barrier IgG synthesis (Tourtellotte et al), 21

- IgG production within the central nervous system: a critical review of proposed formulae (Lefvert and Link), 13
- quantitation of the synthesis of immunoglobulin G within

the central nervous system (Whitaker), EDITORIAL COMMENT, 11

Opioid immunoreactivity, endogenous

- endogenous opioid immunoreactivity in rat spinal cord following traumatic injury (Faden et al), 386

Optic nerve

- assessment of vestibulo-ocular reflexes in congenital nystagmus (Gresty et al), 129

Optic nerve conduction

- improved optic nerve conduction with ingestion of ice water (Scherokman et al), LETTER, 418

Optic nerve degeneration

- clinical and experimental neurotoxicity of 2-*t*-butylazo-2-hydroxy-5-methylhexane (Spencer et al), 28

Optokinetic response

- the influence of preexisting oscillations on the binocular optokinetic response (Abadi and Dickinson), 578

Oscillations, spontaneous

- the influence of preexisting oscillations on the binocular optokinetic response (Abadi and Dickinson), 578

Papilledema

- intracranial pressure, conductance to cerebrospinal fluid outflow, and cerebral blood flow in patients with benign intracranial hypertension (pseudotumor cerebri) (Gjeris et al), 158

Paraparesis, tropical spastic

- tropical spastic paraparesis: a neuroepidemiological study in Colombia (Román et al), 361

Paraplegia

- paraplegia resulting from rupture of previously asymptomatic intramedullary hemangioblastoma during coitus (Rothstein), LETTER, 519

Parasagittal blood flow

- positron emission tomography in the asphyxiated term newborn: parasagittal impairment of cerebral blood flow (Volpe et al), 287

Paresis, spastic

- atypical Alzheimer's disease with spastic paresis and ataxia (Aikawa et al), 297

Parkinsonism

- atypical presentation of progressive supranuclear palsy (Davis et al), 337
- idiopathic dystonia-parkinsonism with marked diurnal fluctuation of symptoms (Sunohara et al), 39

Parkinson's disease

- acute exacerbation of Parkinson's disease with sulindac (Sandyk and Gillman), LETTER, 104
- alterations in regional brain concentrations of neurotensin and bombesin in Parkinson's disease (Bissette et al), 324
- association between essential tremor and Parkinson's disease (Geraghty et al), 329
- low cancer rates among patients with Parkinson's disease (Jansson and Jankovic), 505
- mesulergine (CU32-085) in the treatment of Parkinson's disease (Pfeiffer et al), 334
- the nucleus basalis of Meynert in neurological disease: a quantitative morphological study (Rogers et al), 163

Penicillin-induced seizures

- dimethylglycine and reduction of mortality in penicillin-induced seizures (Ward et al), LETTER, 213

Perfusion, experimental regional

- regional perfusion in normal and ischemic rat sciatic nerves (Sladky et al), 191

Peripheral nerves

- leptomeningeal metastases: peripheral nerve and root involvement—clinical and electrophysiological study (Argov and Siegal), 593

- Peripheral neuropathy**
 direct immunofluorescence findings in peripheral nerve from patients with diabetic neuropathy (Graham and Johnson), 450
 reversible, late-onset disulfiram-induced neuropathy and encephalopathy (Borrett et al), 396
- Peripheral Neuropathy Association**
 meeting on diabetic neuropathy (Thomas), NOTE, 210
- Peroneal nerve**
 dermatomal somatosensory evoked potentials in unilateral lumbosacral radiculopathy (Aminoff et al), 171
- Phenothiazines**
 antispasticity drugs: mechanisms of action (Davidoff), NEUROLOGICAL PROGRESS, 107
- Phenytoin toxicity**
 stimulus-induced myoclonus and burst suppression on EEG: effects of phenytoin toxicity (Trauner), LETTER, 312
- Phosphorylase deficiency, muscle**
 myophosphorylase deficiency impairs muscle oxidative metabolism (Haller et al), 196
- Photoc stimulation**
 stimulus rate determines regional brain blood flow in striate cortex (Fox and Raichle), 303
- Pick's disease, experimental**
 comparison of survival times of mice inoculated with brain tissue from various neurological diseases (Greenham and Peacock), 206
- Plaques**
 occurrence of neuropathological changes and dementia of Alzheimer's disease in Down's syndrome (Wisniewski et al), 278
- Plaques, neuritic**
 atypical Alzheimer's disease with spastic paresis and ataxia (Aikawa et al), 297
- Plaques, senile. See Senile plaques**
- Polymyositis**
 inflammatory myopathies: part 1 (Mastaglia and Ojeda), NEUROLOGICAL PROGRESS, 215
 inflammatory myopathies: part 2 (Mastaglia and Ojeda), NEUROLOGICAL PROGRESS, 317
- Polyneuropathy**
 polyneuropathy and IgM monoclonal gammopathy: studies on the pathogenetic role of anti-myelin-associated glycoprotein antibody (Mendell et al), 243
- Polyneuropathy, chronic relapsing**
 ocular palsy preceding chronic relapsing polyneuropathy by several weeks (Donaghy and Earl), 49
- Polypeptides, oligomeric**
 the molecular basis for autosomal dominant inheritance (Makin), LETTER, 517; reply (Rosenberg), LETTER, 517
- Positron emission tomography. See Tomography, emission computed**
- Precentral ablation, experimental**
 basal ganglia glucose utilization after recent precentral ablation in the monkey (Dauth et al), 431
- Prevalence studies**
 the frequency of multiple sclerosis in Italy: a descriptive study in Ferrara (Granieri et al), 80
- Progressive supranuclear palsy**
 atypical presentation of progressive supranuclear palsy (Davis et al), 337
- Protein abnormality**
 the molecular basis for autosomal dominant inheritance (Makin), LETTER, 517; reply (Rosenberg), LETTER, 517
- Protein synthesis, muscle**
 in vivo estimation of muscle protein synthesis in myotonic dystrophy (Halliday et al), 65
- Proteins, crystallized**
 crystalline encephalopathy: cerebral immunoprotein deposits and isolated angiitis (Pezeshkpour et al), 96
- Pseudotumor cerebri**
 intracranial pressure, conductance to cerebrospinal fluid outflow, and cerebral blood flow in patients with benign intracranial hypertension (pseudotumor cerebri) (Gjeris et al), 158
- Pulmonary artery pressure**
 nucleus tractus solitarius lesions elevate pulmonary arterial pressure and lymph flow (Darragh and Simon), 565
- Pulmonary edema**
 nucleus tractus solitarius lesions elevate pulmonary arterial pressure and lymph flow (Darragh and Simon), 565
- Pursuit, smooth**
 disturbance of smooth pursuit caused by infarction of occipitoparietal cortex (Leigh and Tusa), 185
- Pyramidal tract signs**
 neurological findings in triosephosphate isomerase deficiency (Poli-The et al), 439
 progressive encephalopathy in children with acquired immune deficiency syndrome (Epstein et al), 488
- Pyridoxine deficiency**
 atypical presentations of pyridoxine-dependent seizures: a treatable cause of intractable epilepsy in infants (Goutières and Aicardi), 117
- Pyruvate, elevated**
 maternally inherited mitochondrial myopathy and myoclonic epilepsy (Rosing et al), 228
- Pyruvate dehydrogenase deficit**
 an immunochemical study of the pyruvate dehydrogenase deficit in Alzheimer's disease brain (Sheu et al), 444
- Radiculopathy, lumbosacral**
 dermatomal somatosensory evoked potentials in unilateral lumbosacral radiculopathy (Aminoff et al), 171
- Radiographic image enhancement**
 high-resolution computed tomography in multiple sclerosis (Barrett et al), 33
- Receptors, cholinergic**
 the nucleus basalis of Meynert in neurological disease: a quantitative morphological study (Rogers et al), 163
- Receptors, dopamine**
 tetraabenazine induces acute dystonic reactions (Burke et al), 200
- Receptors, GABA-benzodiazepine**
 antispasticity drugs: mechanisms of action (Davidoff), NEUROLOGICAL PROGRESS, 107
- Receptors, neurotransmitter**
 neurotransmitter receptors in amyotrophic lateral sclerosis: possible relationship to sparing of eye movements (Whitehouse et al), LETTER, 518
- Regional blood flow, brain**
 stimulus rate determines regional brain blood flow in striate cortex (Fox and Raichle), 303
- Regional blood flow, cerebral**
 leptomeningeal metastases: reduction in regional cerebral blood flow and cognitive impairment (Siegal et al), 100
- Regional blood flow, experimental**
 regional perfusion in normal and ischemic rat sciatic nerves (Sladky et al), 191
- Renal dysfunction**
 fatal infantile mitochondrial myopathy and renal dysfunction caused by cytochrome c oxidase deficiency: immunological studies in a new patient (Zeviani et al), 414
- Rhabdomyolysis**
 inflammatory myopathies: part 1 (Mastaglia and Ojeda), NEUROLOGICAL PROGRESS, 215

- inflammatory myopathies: part 2 (Mastaglia and Ojeda), **NEUROLOGICAL PROGRESS**, 317
- Rolandic cortex
the second sensory area in humans: evoked potential and electrical stimulation studies (Lüders et al), 177
- Rose bengal stain
induction of reproducible brain infarction by photochemically initiated thrombosis (Watson et al), 497
- Saccades, horizontal
eye movements in patients with absent voluntary horizontal gaze (Baloh et al), 283
- Schwann cell cytoplasmic swelling
experimental lead neuropathy: inorganic lead inhibits proliferation but not differentiation of Schwann cells (Sobue and Pleasure), 462
- Schwann cell intranuclear inclusions
experimental lead neuropathy: inorganic lead inhibits proliferation but not differentiation of Schwann cells (Sobue and Pleasure), 462
- Sciatic nerve ischemia
regional perfusion in normal and ischemic rat sciatic nerves (Sladky et al), 191
- Sclerosis, Balo's concentric
Balo's concentric sclerosis: new observations on lesion development (Moore et al), 604
- Sclerosis, progressive systemic
transverse myelopathy in progressive systemic sclerosis (Brown and Murphy), **LETTER**, 615
- Secondary sensory area
the second sensory area in humans: evoked potential and electrical stimulation studies (Lüders et al), 177
- Seizure, first
CT evaluation in patients after first seizure (Russo and Goldstein), **LETTER**; reply (Ramirez-Lassepas et al), **LETTER**, 619
- Seizures
electroencephalographic spiking activity, drug levels, and seizure occurrence in epileptic patients (Gotman and Marciani), 597
- Seizures, complex partial
 γ -vinyl GABA: a double-blind placebo-controlled trial in partial epilepsy (Gram et al), 262
- Seizures, neonatal
seizures and cerebral infarction in the full-term newborn (Levy et al), 366
- Seizures, penicillin-induced
dimethylglycine and reduction of mortality in penicillin-induced seizures (Ward et al), **LETTER**, 213
- Seizures, pyridoxine-dependent
atypical presentations of pyridoxine-dependent seizures: a treatable cause of intractable epilepsy in infants (Goutières and Aicardi), 117
- Self mutilation
naloxone abolishes self-injuring in a mentally retarded child (Sandyk), **LETTER**, 520
- Senile dementia of Alzheimer type
Alzheimer changes in nondemented patients younger than sixty-five: possible early stages of Alzheimer's disease and senile dementia of Alzheimer type (Ulrich), 273
cerebrospinal fluid acetylcholinesterase activity in senile dementia of the Alzheimer type (Tune et al), 46
- Senile plaques
Alzheimer changes in nondemented patients younger than sixty-five: possible early stages of Alzheimer's disease and senile dementia of Alzheimer type (Ulrich), 273
nucleus raphe dorsalis in Alzheimer's disease: neurofibrillary tangles and loss of large neurons (Yamamoto and Hirano), 573
- Sensorimotor neuropathy
clinical and experimental neurotoxicity of 2-*t*-butylazo-2-hydroxy-5-methylhexane (Spencer et al), 28
- Sensorineural hearing loss
facioscapulohumeral dystrophy presenting in infancy with facial diplegia and sensorineural deafness (Korf et al), 513
- Sentence repetition
the critical role of Wernicke's area in sentence repetition (Selnes et al), 549
- Sepsis
hypoglycemia: causes, neurological manifestations, and outcome (Malouf and Brust), **NEUROLOGICAL REVIEW**, 421
- Spasms, infantile
progressive encephalopathy in children with acquired immune deficiency syndrome (Epstein et al), 488
- Spasticity
tropical spastic paraparesis: a neuroepidemiological study in Colombia (Román et al), 361
- Spasticity, treatment of
antispasticity drugs: mechanisms of action (Davidoff), **NEUROLOGICAL PROGRESS**, 107
- Spastic paresis
atypical Alzheimer's disease with spastic paresis and ataxia (Aikawa et al), 297
- Spike activity, electroencephalographic
electroencephalographic spiking activity, drug levels, and seizure occurrence in epileptic patients (Gotman and Marciani), 597
- Spinal cord injury, experimental
endogenous opioid immunoreactivity in rat spinal cord following traumatic injury (Faden et al), 386
- Spinal root
leptomeningeal metastases: peripheral nerve and root involvement—clinical and electrophysiological study (Argov and Siegal), 593
- Spinal tract degeneration
clinical and experimental neurotoxicity of 2-*t*-butylazo-2-hydroxy-5-methylhexane (Spencer et al), 28
- SSPE virus
SSPE treated with Isoprinosine: immunopathological observations (Streletz et al), **NOTE**, 105
- Status epilepticus
nonconvulsive status epilepticus following metrizamide myelogram (Levin and Lee), **LETTER**, 518
- Striate cortex
stimulus rate determines regional brain blood flow in striate cortex (Fox and Raichle), 303
- Stroke, experimental
induction of reproducible brain infarction by photochemically initiated thrombosis (Watson et al), 497
- Stroke, neonatal
seizures and cerebral infarction in the full-term newborn (Levy et al), 366
- Subacute sclerosing panencephalitis
SSPE treated with Isoprinosine: immunopathological observations (Streletz et al), **NOTE**, 105
- Subarachnoid hemorrhage
hyponatremia and cerebral infarction in patients with ruptured intracranial aneurysms: is fluid restriction harmful? (Wijdicks et al), 137
- Substantia innominata
the nucleus basalis of Meynert in neurological disease: a quantitative morphological study (Rogers et al), 163

- Sulindac**
acute exacerbation of Parkinson's disease with sulindac (Sandyk and Gillman), LETTER, 104
- Tay-Sachs disease**
the cherry-red spot in Tay-Sachs and other storage diseases (Kivlin et al), 356
- T cell growth factor**
adoptive transfer of murine relapsing experimental allergic encephalomyelitis (Lublin), 188
- Tetrabenazine**
tetrabenazine induces acute dystonic reactions (Burke et al), 200
- Thalamus**
computed tomographic analysis of brain morphometrics in 30 healthy men, aged 21 to 81 years (Schwartz et al), 146
- Thalamus, lesions of**
amnesia in monkeys after lesions of the mediodorsal nucleus of the thalamus (Zola-Morgan and Squire), 558
- Thrombosis, photochemically induced experimental**
induction of reproducible brain infarction by photochemically initiated thrombosis (Watson et al), 497
- Thyroid neoplasms**
low cancer rates among patients with Parkinson's disease (Jansson and Jankovic), 505
- Timolol**
worsening of myasthenia gravis with timolol maleate eye-drops (Verkijk), LETTER, 211
- Tizanidine**
electrophysiological analysis of the mode of action of muscle relaxants in spasticity (Delwaide), 90
- Tomography, emission computed**
in vivo measurement of brain tumor pH using [¹¹C]DMO and positron emission tomography (Rottenberg et al), 70
local cerebral metabolic rate for glucose during petit mal absences (Engel et al), 121
positron emission tomography in the asphyxiated term newborn: parasagittal impairment of cerebral blood flow (Volpe et al), 287
stimulus rate determines regional brain blood flow in striate cortex (Fox and Raichle), 303
- Tomography, x-ray computed**
anatomical basis for acquired fluent aphasia in children (VanDongen et al), 306
central pontine myelinolysis diagnosed by magnetic resonance imaging (Takeda et al), LETTER, 310
computed tomographic analysis of brain morphometrics in 30 healthy men, aged 21 to 81 years (Schwartz et al), 146
computed tomography in white matter diseases (Ferriero and Koch), LETTER, 314; reply (Farrell et al), LETTER, 315
- CT evaluation in patients after first seizure (Russo and Goldstein), LETTER; reply (Ramirez-Lassepas et al), LETTER, 619**
decreased morbidity from acute bacterial spinal epidural abscesses using computed tomography and nonsurgical treatment in selected patients (Leys et al), 350
early-onset Alzheimer's disease: an analysis of CT findings (Drayer et al), 407
evolution of computed tomographic abnormalities in leptomeningeal metastases (Jaecle et al), 85
- high-resolution computed tomography in multiple sclerosis (Barrett et al), 33
multiloculated fluid-blood level with subdural hematoma (Finelli), LETTER, 103
postoperative contrast enhancement in patients with brain tumor (Cairncross et al), 570
progressive multifocal leukoencephalopathy: clinical and radiographic features (Krupp et al), 344
- Trauma, experimental spinal cord**
endogenous opioid immunoreactivity in rat spinal cord following traumatic injury (Faden et al), 386
- Tremor**
neurological findings in triosephosphate isomerase deficiency (Poll-The et al), 439
- Tremor, essential**
association between essential tremor and Parkinson's disease (Geraghty et al), 329
- Trigeminal neuralgia**
encephalopathy associated with baclofen (Abarbanel et al), LETTER, 617
- Triglycerides**
the role of plasma lipids in carotid bifurcation atherosclerosis (Ford et al), 301
- Triosephosphate isomerase deficiency**
neurological findings in triosephosphate isomerase deficiency (Poll-The et al), 439
- Uremia**
cefazolin-induced encephalopathy in a uremic patient (Schwankhaus et al), LETTER, 211
- Vacuoles, rimmed**
autosomal recessive distal muscular dystrophy: a comparative study with distal myopathy with rimmed vacuole formation (Nonaka et al), 51
- Valproate**
treatment of ocular myoclonus with valproic acid (Lefkowitz and Harpold), LETTER, 103
- Vestibular function**
assessment of vestibulo-ocular reflexes in congenital nystagmus (Gresty et al), 129
- Vestibulo-ocular reflex**
assessment of vestibulo-ocular reflexes in congenital nystagmus (Gresty et al), 129
eye movements in patients with absent voluntary horizontal gaze (Baloh et al), 283
- Vision disorders**
improved optic nerve conduction with ingestion of ice water (Scherokman et al), LETTER, 418
- Visuospatial contrast sensitivity**
hemispheric lateralization of spatial contrast sensitivity (Kobayashi et al), 141
- Wernicke's aphasia. See Aphasia, fluent**
- Wernicke's area**
the critical role of Wernicke's area in sentence repetition (Selnes et al), 549
- White matter diseases**
computed tomography in white matter diseases (Ferriero and Koch), LETTER, 314; reply (Farrell et al), LETTER, 315
- Wilson's disease, late-onset**
late-onset Wilson's disease with neurological involvement in the absence of Kayser-Fleischer rings (Ross et al), 411
